

Welcome to the Heilicher Minneapolis Jewish Day School! We are glad you are choosing to explore Heilicher.

When you walk through our halls, you will see whole-child education in practice. From kindergarten through eighth grade, Heilicher students experience highly personalized learning in a nurturing environment. Our educators take the time to discover and appreciate what makes every child unique, inspiring them to find their passion and unlock their highest potential.

Hallmarks of the Heilicher experience are academic excellence, pride in Jewish identity, and growing self-confidence. We offer challenging and engaging coursework in math, science, social studies, language arts, and Hebrew. We also provide depth and breadth in our Judaic studies program so that students gain a mature understanding of the diversity of Jewish sources and practices. Jewish values are infused in all of our activities from the art and music we create to the way we care for each other as a community in times of need.

We take seriously our responsibility to educate the next generation of leaders and global citizens. Our graduates are more than ready for high school, college, and a lifetime of community engagement.

Please do not hesitate to contact me or Deborah Getsug, Admissions Director, with any questions or to schedule a personal tour. We look forward to sharing Heilicher with you.

Sincerely,

Dr. Dan Ahlstrom
Head of School
